None

**Past Medical History**

Medical History Verified.

**Surgical History**

No Surgical History documented.

**Family History**

Mother: alive

Father: deceased

Siblings: alive

Children: alive

2 sister(s) - healthy. 3 son(s), 2

daughter(s) - healthy.

**Allergies**

N.K.D.A.

**Hospitalization/Major****Diagnostic Procedure**

No Hospitalization History.

**Review of Systems****ABC Card:**

Do you suffer from allergies? yes.

Would you like to be allergy tested? yes.

Do you have 4-5 sinus infections per

year? yes. Do you snore? yes. Do you feel

sleepy during the day? yes. Have you

been told you stop breathing at

night? yes. Do you have high blood

pressure or are on medication to control

high blood pressure? yes.

**GENERAL:**no weight loss. no excessive weight  
gain. no fever. no chills. no general sick  
feeling.**CARDIOLOGY:**

no chest pain. no racing heart.

no irregular heartbeat. no fainting

spells. no shortness of breath with

activity. no leg pain with walking.

no inability to sleep lying flat.

**Reason for Appointment**

1. Assault/ right ear issues

**History of Present Illness****Current Complaint:**

56 year old male presents after being assaulted 3 days ago. He was punched in the right eye. He was seen at the ER and CT scan done and there are no fractures. He was seen at Costco optometry for his eye and everything was normal. He complains of noise in his right ear that is more pronounced when he opens and closes his mouth or chewing. He denies pain in the right ear. Hearing is not decreased. It does feel plugged.

**Vital Signs**

Temp: .., BP: Not Taken - No Medical Need, HR: 73 /min, Wt: 140 lbs, Ht: 71 in, BMI: **19.52 Index.**

**Examination****General:**

General Appearance: NAD, pleasant, well nourished, normal voice.

Head/face: ecchymosis surrounding right eye with laceration in right midface.

**Eyes:**

Extraocular movements intact bilaterally.

Nystagmus None.

Pupils PERRLA Bilaterally.

Conjunctiva/Lids Normal without injection.

**Ear:**

External Ear: Normal pinnae and EAC on left, cerumen impaction on right.

Tympanic Membrane: Clear and Intact.

Middle Ear: no effusion bilaterally, no erythema or bulging.

Hearing: Hearing grossly intact to normal &amp; whisper voice.

**Nose:**

Septum: midline, equal airway.

Inferior turbinates: normal pink.

Nasal Cavity normal mucosa.

Secretions: clear rhinorrhea.

**Oral/Oropharynx:**

Lips/Gums normal mucosal without lesions.

FOM: NED.

Progress Note: Nicole Wissing 07/22/2022

CUC, Dan DOB: 01/09/1966 (56 yo M) Acc No. 63473 DOS: 07/22/2022

**RESPIRATORY:**

no chronic cough. no shortness of breath. no wheezing. no noisy breathing.

**GASTROENTEROLOGY:**

no nausea. no vomiting. no difficult/painful swallowing. no stomach pain. no blood in stool. no constipation. no diarrhea. no change in bowel habits.

**GENITOURINARY:**

no frequent urination. no painful urination. no blood in urine. no sexual dysfunction. no abnormal bleeding.

**MUSCULOSKELETAL:**

no muscle pain. no joint pain. no weakness. no cramps.

**NEUROLOGY:**

headache yes. no seizures. no tingling numbness. no strange feelings. no discoordination. no weakness.

**PSYCHOLOGY:**

no changes in mood. no thoughts of suicide. no anxiety. no depression. no hallucinations.

**DERMATOLOGY:**

no rashes. no new/changing marks on skin. no itching/dryness. no hair loss. no change in moisture/texture of skin.

**HEMATOLOGY:**

no anemia. no easy bruising. no previous blood transfusion. no reaction to previous transfusion.

**ENDOCRINOLOGY:**

no heat intolerance. no cold intolerance. no racing heart. no excessive weight loss/gain. no excessive hunger. no excessive thirst. no excessive urination.

**IMMUNE/ALLERGY:**

no itchy/watery eyes. no sneezing. no runny nose. no known allergies. no reactions of food or insect bites. no previous allergy testing.

**Eyes:**

no blurred vision. no double vision. no blindness. no seeing spots. eye pain yes.

**ENT:**

Hearing loss Yes. ear fullness No. Tinnitus Yes. no dizziness/spinning sensation. no feeling fluid in ears. no ear pain. no loss/change in sense of smell. no loss/change in sense of taste. no nasal congestion. no post nasal drip. no Runny nose. no epistaxis. no sore throat.

Tongue: normal without lesion.

Palate: no lesions.

Oropharynx: Clear. No lesions present.

Tonsils 2+, No erythema or exudate.

**Neck:**

Inspection: no visible masses, adenopathy or thyromegaly..

Trachea: midline.

Thyroid: non-tender, normal in size.

**Neurology:**

Cortical functions: normal.

Cranial nerves: II-XII normal bilaterally.

Motor strength: V/ V bilaterally.

Cerebellar signs: absent.

Gait: normal.

Tremors: absent.

**Assessments**

1. Tinnitus of right ear - H93.11 (Primary)
2. Cerumen impaction - H61.20
3. Eye injury, superficial - S05.8X9A

**Treatment****1. Tinnitus of right ear**

Notes: Tinnitus resolved upon cerumen removal.

**2. Cerumen impaction****PROCEDURE: Cerumen Removal**

Notes: Cerumen removed from right canal under microscopy. HEaring and tinnitus resolved.

**3. Eye injury, superficial**

Notes: Pt has resolving bruising and swelling of soft tissues of right ear following recent assault. No visual/retinal or facial fractures.

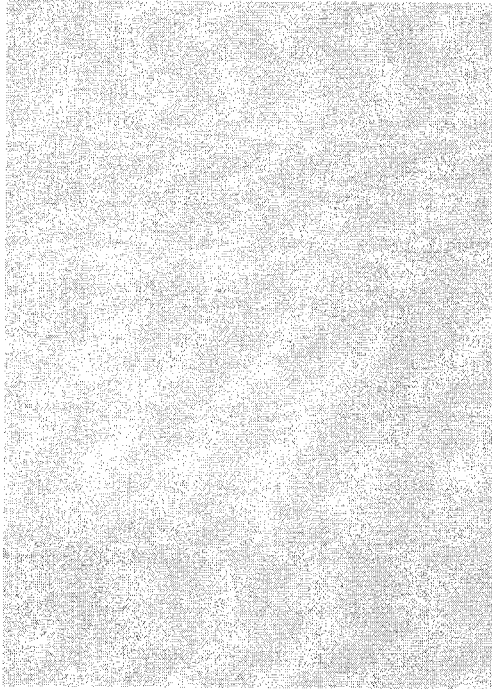

**Procedures****Binocular Otomicroscopy/Cerumen Removal:**

Reason for Procedure: Cerumen Impaction. Performed by: Nicole Wissing, PA-C. Side(s) Performed: Right. Details of the Procedure: The patient was properly identified and consent obtained to proceed. The patient was laid on the procedure table in the supine position. The operating microscope was wheeled to the table. A speculum was placed in the respective ear canals. Cerumen and squamous debris was removed using instruments/technique as indicated below. Findings are detailed below. Patient tolerated procedure without incident. . Complications: None.. Right Ear Findings: Non-occluding cerumen, Normal ear canals after removal of debris, Tympanic membrane clear and intact. Technique(s)/Method(s) Used: Suction, H2O2 irrigation. Cerumen/Debris Characteristics Hard/Friable. Anesthesia None.

CUC, Dan **DOB:** 01/09/1966 (57 yo M) **Acc No.** 63473 **DOS:** 01/09/2023

Gait: normal.  
Tremors: absent.

**Assessment:****Assessment:**

1. Eustachian tube dysfunction - H69.80 (Primary)
2. TMJ (temporomandibular joint disorder) - M26.609

**Plan:****1. Eustachian tube dysfunction**

Notes: No evidence of ear canal trauma, middle ear fluid, or retracted TM. No fractures on imaging. Popping sound has improved with flonase. Rec continuing.

**2. TMJ (temporomandibular joint disorder)**

Notes: On exam today he has some crepitus over the right TMJ. Counseled him that the popping sound could be caused by this since his exam is normal. Rec getting a mouth guard from getcheeky.com to treat TMJ.

**Follow Up:** 3 Months (Reason: f/u ETD, TMJ)
